

March 16, 2020

Dear Residents,

CC Young has been carefully following the recommendations of the CDC and Texas Health and Human Services Commission. Our highest priority is for the welfare of our residents and team members. We will need your patience and cooperation as we respond to this evolving situation.

On Wednesday, March 18, 2020, our nursing team will begin monitoring and recording all residents' daily temperatures. The nursing staff will come to your apartment, knock on your door, and scan your forehead for temperature check and record. Nursing staff will not be coming into your apartment so please be ready and available at your assigned temperature check.
