

CC Young critically needs your help as we battle and confront the complex issues associated with the unprecedented health crisis inflicted by COVID-19 pandemic.

Since 1922 we have had the unwavering commitment to protect our residents and team members.

It is daunting because we serve approximately 450 residents with more than 1500 family contacts. We employ almost 500 individuals who serve on campus.

At this time we have a severe restriction to those entering our campus. Only those who are essential are allowed.

Our rapid response to the COVID-19 crisis has created a serious strain on our financial resources. While revenues are declining our costs are escalating daily.

Revenues from the Vista 7<sup>th</sup> floor have been foregone so that we can create an isolation area for residents should we have an introduction of COVID 19 to our campus.

Campus marketing activities and many hospital discharges to the Vista have been required to be put on hold, additional staff overtime pay, PPE supplies and higher costs due to supply shortages are increasingly pressuring our reserves, revenues and cost structures.

Many of our residents are in the most compromised and vulnerable age groups to the complications of recovering from COVID-19.

We are asking for your very vital support at this precarious and challenging time to enable CC Young to support those of the Greatest Generation who supported us years ago.

As a non-profit we depend upon your support, so do the precious lives we serve.

With gratitude,

Mindy Hail  
Director, Development
