

May 26, 2021

FOR ALL RESIDENTS, RESIDENT FAMILIES / VISITORS, and VENDORS:

NEW COVID-19 SCREENING TOOL EFFECTIVE WEDNESDAY, JUNE 2, 2021!

Exciting news! CC Young has purchased a system called “Accushield” which will help us keep records on the screening information still required for COVID-19.

The system will “log in” our visitors and staff, print nametags, take temperatures, and keep track of the screening information going forward.

All Campus Visitors will start using this system Wednesday, June 2. This includes Families, Guests, Volunteers, and Vendors.

On arrival:

- Drive in through the main front gate and follow new signage for “Visitors.” (Keep to left side of driveway.)
- Get out of your car and go inside Vista Lobby where there are 2 kiosks.
- Using the touch screen, press “Sign In” and then identify yourself. (see screen shots on last page of this letter)
- Enter your mobile phone number.
- Then type in your first and last name. (This step is only when signing in for the first time.)
- Answer screening questions.
- Accushield will PROMPT YOU to position your face on screen so it can take your temperature. (You might need to take off glasses and hats in order for it to read your temperature correctly!)
- After your temperature is taken, Accushield will ask if you are here to visit a resident, a staff member, or here to attend an event. Choose the one that applies to you.
- If you are visiting a resident, type in their last name and their name should pop up on the screen.
- If you are visiting a staff member, just scroll through the list of names listed and select the person you are visiting.
- Finally, Accushield will prompt you to take a picture and your badge will print out.
- Place the nametag on your chest, then return to your car and proceed to your destination.

This is a fast and easy process and so much more efficient than hard copies. There is an APP coming soon which will make it even quicker. We will keep you posted on that upgrade. In the meantime, we appreciate your ready participation and patience to help us through the initial launch!

More good news? CCY is now officially designated as a vaccine provider. This is great news because we can now offer vaccinations to new residents and new employees as they join our team. Our first COVID-19 Vaccine Clinic as an official provider is also June 2. (Big Day on Campus!) We are evaluating the process for vaccinating resident and employee family members so stay tuned for more information when we work through the details.

Thanks and congratulations to all of you who are already vaccinated! Almost 100% of our residents and approximately 60% of our employees have been vaccinated. Twenty four (24) more employees are scheduled for June 2 so we are going in the right direction. Our statistics far exceed the national averages for senior living communities.

The information in this letter is exciting news – on multiple levels! We look forward to more changes later this year and getting back to “business as usual” (pre-COVID style!).

Warm regards,

Jennifer Griffin
Senior Director
Community Outreach
